## 3 D I T S O L U T I O N S L T D

3DIT Solutions Limited are procurement solution experts, that specialise in card and invoicing solutions and systems.

3DIT develops and markets Purchase|<sup>3</sup> technology; the business tools and solutions that can assist your organisation in reducing the cost of procurement through efficient design and process while maintaining effective control.

Designed using leading edge Web browser-based technologies, our solutions provide our clients with an effective means to manage and control credit card purchasing throughout their organisation.

**PURCHASE3.COM** is 3DIT's branded leading edge internet based ASP solution, designed to be used by any organisation anywhere in the world that has access to the internet.

3DIT also markets Purchase|<sup>3</sup> technologies as a customised solution to meet the branding and specialised needs of financial institutes and corporates.

Please contact us for further details and a demonstration on how Purchase|<sup>3</sup> technologies can help your organisation or clients improve purchase card management and control.
